## How to Ship to the USA – the details ...

Your wine is being shipped home legally to you in the United States via Cote d'Or Imports. Here's what happens now:

- **Prices** include French logistics, export customs, international air freight, US customs clearance and duty, reconditioning and US delivery via group transport (UPS or Fedex). One case cannot mix bottles and magnums. Partial cases will be calculated to the next highest bottle count for billing purposes. You will be receiving a confirmation e-mail from our US team when your order has been processed in France.
- **Insurance** fees cover breakage, loss and wine specific damage like seepage during transit. Please open your cases immediately upon delivery and let us know by e-mail (within 36 hours) if you have any concerns. Please provide photos whenever possible. Your satisfaction is our number one priority.
- **Timing:** all individual wine orders are grouped together into shipments that depart from France approximately once a month, with more frequent departures in the spring and fall. The shipment is then cleared through customs and delivered to you via ground delivery. Timing for delivery depends upon when your order is placed, when we receive it in our French warehouse and when the last shipment departed. Therefore, lead times for delivery can range from 4 to 8 weeks from the time we have your wines in our possession in France.
- **Protecting your wines:** We specialized in legally shipping wine, therefore will be taking every needed precaution to avoid any risk of damage during transit due to extreme weather conditions. If this means storing your wines in our temperature controlled warehouse until weather is appropriate to ship, we will do so free of charge. There may be openings during the cold and hot weather conditions where your wines can be expedited for additional fees instead of free storage. These options will be presented to you if the situation arises.
- **Additional details / requirements for certain states:**
  - o It is illegal under state laws to deliver wine to consumers in **UT and KY**. If you live in one of these states, please contact us for other options.
  - o In **Alabama**, wine must be delivered to a state store for an additional fee of approximately \$4 per case of 12 bottles. You will pay that fee upon pick up. We will be in contact with you to determine the most convenient state store for delivery.
  - o **New Hampshire** charges a state tax of 8% of the total value of the wine for direct shipments to consumers. This is to be paid at the winery when you pay for wine, insurance and shipping fees.
  - o **Hawaii** requires additional fees of 85 Euros/case of 6 or 12 bottles.
  - o **Illinois** requires additional fees of 65 Euros/case of 6 or 12 bottles.
  - o **Alaska** - shipping is possible for additional fees of 35 Euros/case of 6 or 12 bottles and delivery possible from June 1<sup>st</sup> to September 30<sup>th</sup>. Orders received outside of that window will be stored in our US warehouse until delivery is possible.
